THE PERFECT ALLY TO TECHNICAL TREATMENTS

- Multiplies x 5,6* the strength of chemically processed hair.
- Hair strength is increased proportionally with use.
- Hair is still stronger even after being brushed 5.000 times.
- Repairs the hair structure and protects and strengthens to prevent damage.
- Reduces cuticle fiber wear and tear caused by drying and brushing.
- Increases the strength of both virgin and damaged hair.
- Improves hair strength even in extremely humid conditions.
- Thanks to its concentration and technology, application is in just two steps.
- Doesn't affect color or lightening results or the exposure time of technical processes.

** the **PlexForte** treatment has been shown to increase the resistance of damaged hair by up to 560.8 % in flexabrasion studies carried out by external laboratories.*
